OBJECTIVE

Detail-oriented MCA student with hands-on experience in software development, automation, machine learning, and data analytics. Proficient in Python, Java, SQL, and database technologies, with a passion for building scalable solutions and deriving insights from data. I enjoy building software solutions that solve real-world problems and leveraging data to generate meaningful insights for decision-making. Seeking a Software Developer or Data Analyst role to leverage technical skills and drive impactful results.

EDUCATION :

Qualification	Institute	Year	CGPA
Master of Computer Applications (MCA)	<u>JSS Academy of Technical Education</u>	2024 – Ongoing	9.26 / 10.0
Bachelor of Science (B.Sc)	<u>B. M. S. College for Women</u>	2021 – 2024	9.39 / 10.0

RELEVANT COURSEWORK :

- | | | | |
|----------|-------------------|---------------------------|--------------------|
| • Python | • C | • Database Management | • Machine Learning |
| • Java | • Data Structures | • Artificial Intelligence | • Web Technology |

TECHNICAL SKILLS :

Languages	:	C (C11) (●●●○○), Python (3.x) (●●●●○), Java (8) (●●●○○)
Databases	:	MySQL (8.0) (●●●●○), Oracle (11g) (●●●●○)
Frameworks/Libraries	:	Bootstrap, AngularJS, Pandas, NumPy, Scikit-learn, InceptionV3, Matplotlib
AI/ML	:	Machine Learning, Deep Learning, and Data Analytics
Persistence Technology	:	JDBC (●●●○○)
Tools	:	GitHub, VS Code, Antigravity, Eclipse, IntelliJ, Power BI
Software Concepts	:	SDLC, Object-Oriented Programming, Debugging, Technical Troubleshooting

EXPERIENCE

Global Logica Software Technologies - Basaveshwara Nagar, Bengaluru **Feb 2026 - May 2026***Role : AI powered eCommerce Marketplace with Intelligent Data Optimization*

- Handled end-to-end product lifecycle tasks including product initialization, SKU generation, and inventory management, ensuring accurate and efficient product listing operations.
- Performed product testing using an in-house Python-based application, identifying issues and supporting quality improvement of internal tools and processes.

Merida Tech Minds - Jayanagar, Bengaluru**Feb 2024 - Mar 2024***Role : Python Intern*

- Completed a Python internship gaining hands-on experience in real-world programming applications.
- Contributed to a team-based system design project, focusing on logic building and database interaction.

PROJECTS

Cart Crawler - Internship Project | Python, Playwright, Regular Expressions, Pandas **Feb 2026 - May 2026**

- Worked as part of a team to develop Cart Crawler, an internal automation tool for real time web scraping and product data extraction from an e commerce admin dashboard.
- Implemented browser automation features including automated login, page navigation, pagination handling, and extraction of product details and Product Code information.
- Improved operational efficiency by automating repetitive data collection processes and generating structured Excel reports, reducing manual effort and increasing data accuracy.

- Developed a deep learning-based ovarian cancer prediction system using histopathology images by training InceptionV3 model and used techniques such as Grad Cam for highlighting the important areas, focusing on accurate feature extraction, image preprocessing, and classification to support early and reliable diagnosis.
- Evaluated the model pipeline with performance optimization and validation techniques, ensuring scalability, robustness, and potential integration into real-world clinical decision-support systems.

Image Processing Web Application | *Flask, OpenCV, Bootstrap, Numpy*

Jun 2025

- Built a real-time image processing web application using Flask, OpenCV, and JavaScript, enabling webcam capture and multiple image transformations.
- Implemented backend processing and interactive UI features including file upload, live preview, and downloadable outputs for enhanced user experience.

Employee Management System | *Python, Tkinter, SQLite*

Feb 2025

- Designed and developed a desktop-based Employee Management System using Python and Tkinter, implementing secure CRUD operations with integrated database support.
- Built a user-friendly interface with efficient data handling, enabling streamlined employee record management, search functionality, and real-time updates.

COURSES & CERTIFICATIONS

Web Development Fundamentals – IBM Skill Build

July 2025

- Scored **80%** in IBM Web Development Fundamentals certification, building a strong foundation in HTML, CSS, and JavaScript for creating responsive web applications.
- Developed practical skills in structuring web pages, styling interfaces, and implementing interactive features for user-friendly web solutions.

Introduction to Data Science – Cisco Networking Academy

Oct 2023

- Scored **90%**, learning to process, analyze, and visualize data using real-world datasets.
- Applied statistical and analytical methods to draw actionable business insights from data

Introduction to Machine Learning - VOIS

June 2025

- Completed Introduction to Machine Learning certification by VOIS, gaining hands-on understanding of supervised and unsupervised learning techniques.
- Applied algorithms for classification and clustering, focusing on model evaluation, data preprocessing, and extracting actionable insights from datasets.

EXTRACURRICULAR ACTIVITIES

1. Leadership:

- Student Placement Coordinator, JSSATEB** 2024 – 2026
Coordinated between the placement office and **30+ PG students**, facilitating smooth communication, resolving queries, and supporting multiple placement drives.
- Class Representative, BMSCW** Sep 2023 – Jul 2024
Led class activities and represented peers in academic and administrative matters, ensuring effective coordination and engagement among **50+ classmates**.
- Rotary Club Member** 2017-2018
Participated in social service initiatives, organizing and contributing to community events that impacted **100+ local beneficiaries**.

2. Volunteer:

- Prathibotsava, BMSCW (Talent's Day)** 2023-2024
Assisted in organizing and managing events for **500+ students**, ensuring smooth execution and active participation throughout the event.

ACHIEVEMENTS :

- Received a **cash price of Rs.1000 for scoring centum in 3 subjects** during B.Sc at BMSCW achieving the top score among **100+ students**.
- Participated and won **1st price at Utsav 2024** and received a cash price of Rs.3000 among **30+ teams**.
- Participated and won **2nd price at Kalarav 2024** a National level singing competition, among **15+ participants**.
